PRIMARY EXAMINER

Examiner's signature, if required

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant called and inquired about the Office's response to the applicant's request for continued examination. The examiner informed the applicant that the applicant's amendments overcame some of the previous rejections, however, the claims were still not allowable at least over Massey et al. in view of Hendrickson et al. The examiner additionally pointed out that recitations such as "a metallic rail" are confusing since it appears that the astragal assembly comprises two separate metallic rails connected together by the gasket 72 and that recitations such as "where said exterior portion meets said side portion" are confusing since it appears that the exterior flange meets the gasket rather than the side portion. The applicant agreed to file a response in accordance with Office practice.
